## Commenting on the performance for Q1 CY2018, Mr. Ravi Jaipuria, Chairman – Varun Beverages Limited said,

*"We are pleased to report that we have made a strong start to the year with a robust revenue growth of 24.5% and profit growth of 186.3%. This was led by strong volume growth of 19.7% on consolidation of recently acquired territories. The volume growth in India on an organic basis was strong at 12% which is highly encouraging. Further, the introduction of new product categories, like Tropicana and Sting, has resulted in better portfolio mix and improved our realizations.*

*We have strengthened our presence in fast growing categories during last year. We entered into a strategic partnership for selling and distribution of the larger Tropicana portfolio that includes Tropicana Juices (100%, Delight, Essentials), as well as Gatorade in the Sports drink category and Quaker Value-Added Dairy in territories across North and East India. With VBL already holding manufacturing, sales and distribution rights for Tropicana Slice and Tropicana Frutz in North and East, we are confident that we can leverage our knowledge of the supply chain process, existing distribution network and chilling infrastructure to help expand the franchise for Brand Tropicana in these territories.*

*During the quarter, we have further expanded our juice portfolio with the launch of fizzy drinks in seven different flavours under the 'Slice' brand, having lower calories and zero sugar content, in line with PepsiCo's plan to intensify focus on health and nutrition. All flavours are available in 250 ml PET bottles at an attractive price point of Rs. 12, and have ~11% juice content. The introduction of all these product categories not only augurs well for our long term growth prospects but also will reduce seasonality, enhance profitability and augment return ratios.*

*We are excited about our prospects going into the peak summer season. We will be focused on consolidation of the recent territories that we have acquired. We are confident that the learning, knowledge and mastery over the process that we have attained will help us garner market share in these territories as we increase our penetration further. We will continue to innovate and work with PepsiCo to roll-out new products, staying in the path of relevance of our customers, to push our strategic intent of driving profitable growth. "*

*“We continue to transform our portfolio to offer healthier options and meet consumers’ increasing interest in health and wellness. # Performance Highlights

## Sales Volumes (million unit cases)

Note: Given the seasonality in the business, it is best to monitor the business on an annual basis as, significant portion of the revenues are realized in the Apr-June quarter

# Discussion on Financial & Operational Performance – Q1 CY2018

## Revenues

- Revenue from operations (net of excise / GST) grew 24.5% YoY in Q1 CY2018 to Rs. 10,948 million led by strong volume growth of 19.7% and value growth of ~ 4.8%
- Introduction of higher realization products (Sting, Tropicana, etc.) has aided value growth during the quarter

## Sales Volumes

- Total sales volumes were up 19.7% YoY at 80.4 million cases in Q1 CY2018 as compared to 67.2 million unit cases in Q1 CY2017
- Strong organic volume growth in India at 12.0% in Q1 CY2018 while organic volume growth of 9.8% on a consolidated basis – augurs well for peak season sales
- During Q1 CY2018, CSD constituted 75%, Juice – 6% and Packaged Drinking water – 19% of total sales volumes

## Operating Margins

- EBITDA increased by 25.8% to Rs. 1,727 million in Q1 CY2018 from Rs. 1,372 million in Q1 CY2017; EBITDA margins expanded 16 bps YoY to 15.8%
- Gross margins improved 61 bps YoY during the quarter as the increase in PET prices has been offset by moderation of sugar prices. All other raw material costs are stable
- Approvals for commencement of operations in a particular sub-territory received towards end of quarter and new sub-territories without plants lead to rise in freight costs as these territories were being serviced from existing plants in neighbouring States

## Profit After Tax

- PAT increased by 186.3% to Rs. 197 million in Q1 CY2018 from Rs. 69 million in Q1 CY2017
- Depreciation and finance costs have increased during the quarter on account of in-organic expansion primarily funded through debt
- PAT has increased on the back of robust volume growth in India and gradual turn-around of loss making foreign subsidiaries
- Increase in volumes, consolidation of contiguous territories and robust backward integrated infrastructure have brought in cost efficiencies
